CSB updates

A successful first year for the Community Strategy Board

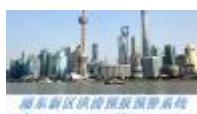

It was actually in one of the meetings of the Community Strategy Board, that this Delft-FEWS newsletter was initiated as the preferred way to inform the community. In October 2016 the CSB celebrated the anniversary of its first year. [Read more...](#)

International projects

Ocean modelling and Early-Warning System for the Gulf of Thailand

Joint work completed by Deltares and the Hydro and Agro Informatics Institute in Bangkok has resulted in the first international implementation of Delft-FEWS + Delft3D + SWAN. [Read more...](#)

Delft-FEWS goes Shanghai

The financial district of Shanghai (Pudong New Area) is flooded several times a year. Therefore, the organisations Pudong Hydrology and Water Resources Administration want to improve the urban flood forecasting and increase the capacity building. [Read more...](#)

News from the community

Getting a prototype running before the snow starts to melt

In the second week of January we initiated a new pilot-project to develop a prototype application of Delft-FEWS in the province of Alberta, Canada.
