

Delft-FEWS

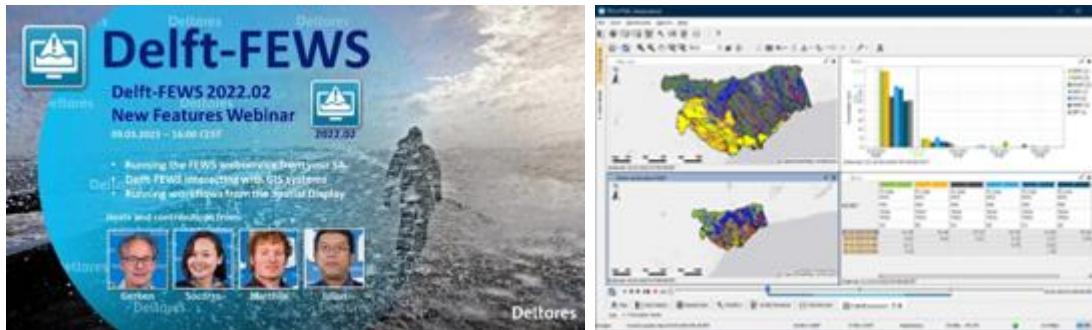

FEWS news: issue 2, 2023

Dear Ms Ten Broeke,

In this spring edition of the Delft-FEWS newsletter, you will find a summary of the news, upcoming events, and other highlights published on the [Delft-FEWS portal](#).

News and highlights

- The new stable release 2022.02 is available, and a selection of features was presented in the [New Features webinar](#). Three videos featured running workflows from the Spatial Display, running web services from your Stand Alone, and link between Delft-FEWS and GIS. The videos were followed by an informal Q&A session led by Gerben Boot and Erik Pelgrim from Deltaires.

- The recording of the [FEWS Community Talk](#) about Forecast Verification is available on the portal, and the presentations are available for download.
- The [Community Strategy Board](#) met to discuss security and cloud hosting. CSB-members learned about the new Open Worldwide Application Security Project (OWASP) procedure and provided Deltaires with valuable feedback about their experiences with cloud hosting.
- The Toronto and Region Conservation Authority (TRCA) recently transitioned to Delft-FEWS to support their daily assessment of forecasted weather and Lake Ontario conditions. Read about this new urban flood forecasting system in the [new showcase](#).

Events

Several user meetings are coming up!

- 6 June – [Delft-FEWS NL Gebruikersdag](#) (Dutch User Day)
- 8 June – [FEWS Community Talk](#): FEWS as Water Information System, in different flavors – presented by several Dutch Waterboards

Did you know that...?

- We now publish a monthly “[How to](#)” post describing new or lesser-known Delft-FEWS functionality. Check out the latest posts to learn about thumbnail graphs in the Schematic Status Display, toggle graph functionality, and validation of import data feeds.

The screenshot shows the Delft-FEWS website's navigation bar with links to HOME, COMMUNITY, NEWS, EVENTS, PROJECTS, and COURSES. Below the navigation is a section titled "Best practices" containing a single post. The post has the title "How to of the month (3) - Validate datafeeds import". Below the title is a snippet of text: "Did you know that Delft-FEWS provides different functionalities to support validation of the datafeeds import?"

We look forward to connecting with you on the [portal](#) and [LinkedIn](#)!

Contact: fews-moderators@deltares.nl for all questions related to the Delft-FEWS portal, and to submit your news item, blog, or showcase.

Kind regards,

The Delft-FEWS moderators
Arjen, Dave, Nena, Ilonka, and Indra
