FEWS news: issue 3, 2023

Dear Ms Ten Broeke,

In this summer edition of the Delft-FEWS newsletter, you will find a summary of the news, upcoming events, and other highlights published on the [Delft-FEWS portal](#).

Community updates

'[Delft-FEWS: steering towards the future](#)' was the theme of this year's Dutch Delft-FEWS User Day. Stories about drought and climate change, sustainable polders, and water quality forecasts were followed by an interactive session with RTC-Tools models. All presentations can be downloaded [here](#).

The Dutch Waterboards organized the [4th FEWS Community Talk](#) featuring Delft-FEWS as a Water Information System. Roger de Crook, CSB member and host, presented examples of Delft-FEWS screenshots/panels, functionality, and information products used in this domain. The chat was active, with some participants inspiring others to consider using the document viewer, longitudinal profile, and hidden series. Roger de Crook: "Overall, we had a nice audience of around 60 fully engaged listeners/participants from around the globe." The recording is available [here](#).

German speaking users visited Aachen for the [Anwendertreffen](#). In a hybrid setting, they enjoyed lectures, workshop presentations, and live demonstrations. Lively discussions prompted an intensive exchange of information.

Developments

The [Delft-FEWS Stable release 2023.01](#) is now available, with more than 100 new features,

such as several new import routines and configuration options for topology. All details about the [new features](#) and the [resolved bugs](#) can be found on the [Delft-FEWS WIKI Release Notes page](#).

Events and Courses

Delft-FEWS User Days Australia	23 – 25 August
New features webinar, Delft-FEWS release 2023.01	14 September
FEWS Community Talk	5 October
Delft-FEWS courses (open for registration)	19 October – 28 November
Delft-FEWS International User Days	8, 9 November
Dutch Delft-FEWS User Day	4 June 2024

Did you know that...?

A monthly “[How to](#)” post on the portal describes new or lesser-known Delft-FEWS functionality. Check out the latest posts to learn about how to:

- hide tool windows in specific displays,
- turn off the automatic rolling barrel in a standalone application,
- verify and inspect time series with the Database Viewer.

All “New Features” webinars from version 2019.02 through 2022.02 are now compiled on the [downloads page](#).

We look forward to connecting with you on the [portal](#) and [LinkedIn](#)!

Contact: fews-moderators@deltares.nl for all questions related to the Delft-FEWS portal, and to submit your news item, blog, or showcase.

Kind regards,

The Delft-FEWS moderators
Arjen, Dave, Nena, Ilonka, and Indra
